Lovely and dreamy as an infaut's sleep The work of brightness grew beneath his hand; A passion-flower unfolding leaf by leaf, As roses open to the call of Spring; seemed to glow and paipitate with joy, s if the pulses of his own strong hear Were leaping through the marbla's cold, still cains. With bot quick throbs, and tremor of delight, He marks his Aogel dream to beauty form As caruest lover marks the first dear blush Of lovelight dawning on a maiden's cheek
